

# MASKING PLUGS

## CORKS 300°F (150°C)

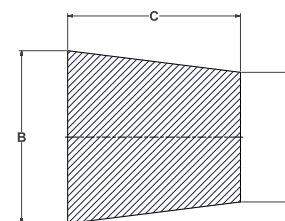

- Recommended for painting applications
- Can be cut to desired length
- Can be used for shipping protection to keep debris out of holes

| Part Number | Imperial (in)   |                  |                 | Quantity Per Bag |
|-------------|-----------------|------------------|-----------------|------------------|

- Recommended for painting applications
- Can be cut to desired length

## SELF-THREADING PLUGS 180°F (82°C)

| Part Number | Thread Size |         | Quantity Per Bag |
|-------------|-------------|---------|------------------|
|             | From        | To      |                  |
| STP-2       | 2-56        | 2-64    | 500              |
| STP-3       | 3-48        | 3-56    | 500              |
| STP-4       | 4-40        | 4-48    | 500              |
| STP-6       | 6-32        | 6-40    | 500              |
| STP-8       | 8-32        | 8-36    | 500              |
| STP-10      | 10-24       | 10-32   | 500              |
| STP-12      | 12-24       | 12-28   | 100              |
| STP-1/4     | 1/4-20      | 1/4-28  | 100              |
| STP-5/16    | 5/16-18     | 5/16-24 | 100              |
| STP-3/8     | 3/8-16      | 3/8-24  | 100              |
| STP-1/2     | 1/2-13      | 1/2-20  | 100              |

- Recommended for plating, anodizing and spray painting
- Self tapping
- Creates a leak proof seal
- Holes can be used for hanging
- Chemical resistant
